## Summary

I am 26 years old Front-end developer working remotely on different freelance projects during last 8 months. I have experience in:

- Web layouts creation with the help of HTML5, CSS3, SASS, JavaScript, jQuery;
- Creation and modernization of JavaScript code;
- Development of CMS based websites (Wordpress, Joomla).

## Skills

- HTML5 + CSS3: semantic and valid code;
- JavaScript: solid knowledge. Creation of custom scripts using vanilla JS and jQuery;
- PHP: understanding of basic code and creation of simple scripts;
- C#: intermediate level, was developing different projects while education at university;
- MySQL: understanding and creation of simple requests;
- OOP:  solid knowledge;
- English: intermediate level.

## Methods and Tools

- Libraries: jQuery;
- Methodologies: BEM, Airbnb JavaScript Style Guide;
- Frameworks: Bootstrap;
- Code and graphics optimisation using minification, sprites and compression tools;
- Cross-browser compatibility (IE9+);
- Graceful degradation;
- Responsive web design;
- Automation: npm;
- Technologies: AJAX;
- Version Control: GIT.
